OPPOSITION MEMBERS' MOTIONS

Debatable Motions

Motion 6 by Mr. Stewart, seconded by Ms. Lynch to propose the following resolution on Thursday, December 10, 2015:

WHEREAS New Brunswick is Canada's only officially bilingual province;

WHEREAS access to second language training is limited or non-existent in many communities across the province, which impedes mutual understanding and access to opportunities;

WHEREAS access to French immersion education programming is limited or non-existent in many schools across the province;

WHEREAS the government's ability to continue to provide a high quality of services to citizens in both official languages may be affected by a lack of investment in second language training and education;

WHEREAS there are best practices in other jurisdictions, as well as new technology, which could be explored to address the gap in investment in second language training and education;

BE IT THEREFORE RESOLVED THAT this Assembly urges the government to examine the issue of second language education and training, and report back to this Assembly with a plan to enhance opportunities for New Brunswickers to improve their skills in communicating in both official languages.

Amendment moved by Hon. Mr. Arseneault, seconded by Mr. Ames that Motion 6 be amended as follows:

That the second Whereas clause be deleted and substituted with the following:

WHEREAS access to second language training should be supported and promoted as it provides many benefits including the fostering of mutual understanding between linguistic communities and access to enhanced opportunities;

That the third Whereas clause be amended as follows:

By deleting the words “is limited or non-existent in many schools across the province” and substituting the following:

“will be enhanced with the introduction of first year early immersion and is supported through pre-intensive, intensive and post-intensive and various language and cultural programs for students”.

That the fourth Whereas clause be amended as follows:

By deleting the words “government’s ability to continue” and substituting the words “government is committed” and deleting the words “may be affected by a lack of” and substituting the words “through ongoing” and by adding “s” to the word “investment”.

That the fifth Whereas clause be amended as follows:

By deleting the words “could be explored to address the gap in” and substituting the words “will continue to be explored to enhance the”.

That the resolution clause be amended as follows:

By deleting the words “examine the issue of” and substituting the word “promote” and deleting the words “report back to this Assembly with a plan” and substituting the word “continue”.

[Debate interrupted due to expiration of time.]

Motion 14 by Mr. Jeff Carr, seconded by Mr. Northrup to propose the following resolution on Thursday, February 11, 2016:

WHEREAS the government has repeatedly said their priority was job creation, stimulating the economy and making New Brunswick a better place to raise a family, and has failed on all three points;

WHEREAS the government promised not to raise fees or taxes for small business in their 2014 election platform;

WHEREAS changes to New Brunswick Regulation 2015-62 under the *Harmonized Sales Tax Act* caused appraisers and New Brunswick small businesses to lose income;

WHEREAS the government has provided no evidence to prove that these changes are necessary or that they will improve services for New Brunswickers;

WHEREAS the red book value of cars does not take into consideration the harsh weather and road conditions of New Brunswick, nor if the vehicle was involved in a collision or accident in placing a dollar value on vehicles;

BE IT THEREFOR RESOLVED THAT the Assembly urge the government to reverse the changes to New Brunswick Regulation 2015-62, and allow New Brunswick’s qualified appraisers and car dealerships to get back to work.

Motion 15 by Mr. Coon, seconded by Mr. Bertrand LeBlanc to propose the following resolution on Thursday, February 11, 2016:

WHEREAS all Members of the Legislative Assembly are elected representatives of the people of New Brunswick;

WHEREAS it is important that the role and responsibilities of MLAs be well understood by the public;

WHEREAS it would be helpful for Members of the Legislative Assembly to have guidelines to aid them in the conduct of their duties;

WHEREAS the effectiveness of MLAs, and their accountability to the people of New Brunswick, may be improved if the Legislative Assembly establishes a formal statement of the key roles and responsibilities of MLAs;

WHEREAS the Legislative Administration Committee recommended the adoption of a statement on the Roles and Responsibilities of an MLA and a Code of Conduct for MLAs in its report to the Legislative Assembly tabled April 3, 2003;

BE IT THEREFORE RESOLVED that the Standing Committee on Procedure, Privileges and Legislative Officers take into consideration the adoption of a statement on the Roles and Responsibilities of an MLA and a Code of Conduct for MLAs.

Motion 16 by Mr. Fitch, seconded by Mr. Stewart to propose the following resolution on Thursday, February 18, 2016:

WHEREAS New Brunswick is going through a period of economic uncertainty, low wage growth, and high unemployment;

WHEREAS a number of important projects relating to natural resource development have been stalled, delayed, or cancelled over the last 16 months;

WHEREAS it is essential to send a clear message that New Brunswick supports safe and sustainable natural resource projects;

BE IT RESOLVED THAT this Assembly:

(a) recognize the importance of the energy sector to the Canadian economy and support its development in an environmentally sustainable way;

(b) agree that pipelines are the safest way to transport oil;

(c) acknowledge the desire of the majority of New Brunswickers for the Energy East pipeline to proceed as soon as possible; and

(d) ask the Prime Minister of Canada to publicly express his support for the project and guarantee he and his cabinet will approve the project if it receives approval from the National Energy Board.

Motion 18 by Mr. Fitch, seconded by Ms. Dubé to propose the following resolution on Thursday, April 14, 2016:

WHEREAS many New Brunswickers have to seek medical treatment outside of the province each year because specific services may not be available in New Brunswick;

WHEREAS the cost of travelling out-of-province to access the treatment is not covered by Medicare;

WHEREAS travel expenses for medical treatments pose hardship to many families;

WHEREAS there are charitable organizations, such as Hope Air, which provide travel support to those in need of medical treatment;

WHEREAS Members of the government previously sought to institute a new policy that would see travel points gained on government air travel, such as flights to Switzerland, become the property of the Crown;

BE IT THEREFORE RESOLVED that the Legislative Assembly urges the government of New Brunswick to collect all air travel points gained on government air travel and donate those points to organizations who can help New Brunswickers in financial need access out-of-province medical treatment.

Motion 20 by Mr. Fitch, seconded by Mr. Holder to propose the following resolution on Thursday, May 26, 2016:

WHEREAS improving access to post-secondary education is good for individual students, for the economy and creating jobs, and for the overall betterment of our society;

WHEREAS the surprise announcement of a new funding program for post-secondary institutions has left New Brunswickers bewildered and confused, with many unanswered questions;

WHEREAS the potential negative impact of the proposed changes are enormous, especially clawing back important financial support programs that were benefiting thousands of students, graduates and their families;

WHEREAS the timing of the proposed changes, coming a few months before the start of the next school year, will leave many students and families scrambling to reassess their post-secondary dreams;

WHEREAS the Gallant Government has made the ability to attend private and extra-provincial institutions virtually impossible for low-income students - not only cutting off their freedom to choose but also the ability to enrol in study programs not offered in New Brunswick public institutions;

WHEREAS none of the proposed changes are the result of widespread consultation with the public, professors, students, or their families, nor has any evidence been produced to prove that the benefits will outweigh the heavy costs of eliminating existing programming and limiting access to a small number of schools;

WHEREAS the chaotic changes proposed by the government fail to address other outstanding issues such as teaching quality, matching training to the workforce, infrastructure deficits, financial accessibility for the middle class, or student retention;

BE IT THEREFORE RESOLVED that this Assembly urges the Gallant Government to post-pone the proposed student financial program changes for one year;

BE IT FURTHER RESOLVED that the government give strong consideration to including private entities, such as Crandall University and Oulton's College, on the list of eligible institutions;

BE IT FURTHER RESOLVED that the government give strong consideration to creating a sliding scale for student eligibility instead of a hard cut-off point where the applicant receives all benefits or none.
