Motion 2 by Mr. S. Graham, seconded by Mr. Burke to propose the following resolution on Tuesday, August 5, 2003:

WHEREAS sky-rocketing insurance rates are a serious concern for many New Brunswickers;

WHEREAS achieving long-term rate relief may entail fundamental changes to the insurance system in New Brunswick;

WHEREAS concerns regarding insurance rates have now gone beyond automobile insurance and into the areas of property and public liability insurance;

BE IT THEREFORE RESOLVED that this Legislature urge the government to immediately establish a Commission on Insurance to study the automobile insurance system in New Brunswick, including the feasibility of a public insurance system that would report to the Legislative Assembly within 60 days;

BE IT FURTHER RESOLVED that this Commission on Insurance be mandated to review other options to improve the protection of New Brunswick consumers in the area of vehicle, property and public liability insurance.

WHEREAS the annual budget of the Department of Health comprises the largest percentage of the New Brunswick provincial budget;

WHEREAS the report of the Health Services Review Committee highlighted the need for greater accountability in the health care system;

WHEREAS the report of the Premier's Health Quality Council reinforced the need for greater accountability in the health care system;

AND WHEREAS the final report of the Romanow Commission on the Future of Health Care in Canada recommends the establishment of accountability as the sixth principle of the *Canada Health Act*;

BE IT THEREFORE RESOLVED that the Legislative Assembly endorse the addition of "Accountability" as the sixth principle of the *Canada Health Act*;

AND BE IT FURTHER RESOLVED that the Legislative Assembly urge the government to encourage other governments to support the addition of this sixth principle.

WHEREAS the remaining spouse will be left with nothing but the family house and a bare, poverty level pension;

WHEREAS this is a serious worry for many New Brunswickers;

BE IT THEREFORE RESOLVED that this legislature urge the government to change the policy from an asset-based test to an income-based test when determining support for nursing home care.

BE IT FURTHER RESOLVED that this legislature urge the government to review the exemptions allowable to the home-based spouse so as not to force liquidation of assets.

Motion 5 by Mr. S. Graham, seconded by Mr. MacIntyre to propose the following resolution on Tuesday, August 5, 2003:

WHEREAS the ceiling levels for transfers for coverage of the cost of prescription drugs

from the provincial Prescription Drug Program for seniors to the Blue Cross plan for seniors were established in 1992 to be \$17 198 for a single senior and \$26 955 for married seniors and have remained at that level;

AND WHEREAS inflation over the years reduces the purchasing power of seniors' earnings;

AND WHEREAS the government has recognized this in its provincial income tax legislation with a provision to prevent "bracket creep";

BE IT THEREFORE RESOLVED that the Legislative Assembly ask the government to examine the feasibility of making an adjustment to this ceiling in the coming year to reflect the above index of inflation in the intervening years;

BE IT FURTHER RESOLVED that the Legislative Assembly ask the government to consider adopting a policy that would automatically adjust the ceilings for the provincial Prescription Drug Program based on an appropriate index of inflation to prevent bracket creep from imposing hardship on seniors.
