Debatable Motions

Motion 58 by Mr. Lamrock, seconded by Mr. Kenny to propose the following resolution on Thursday, April 20, 2006:

WHEREAS economic development funds exist to improve prospects of good jobs and good wages; and

WHEREAS in today's global economy, these good jobs require an investment in research and development; and

WHEREAS neighbouring jurisdictions are investing more aggressively in research and development than New Brunswick is; and

WHEREAS New Brunswick is not on pace to meet the targets for wages or research and development spending set out in the Prosperity Plan;

BE IT RESOLVED that this Assembly urge the government to present clear spending targets for research and development spending from all economic development and innovation funds by May 31, 2006.

Debate interrupted by expiration of time. [19 minutes of debate remaining]

Motion 66 by Mr. Lamrock, seconded by Mr. McGinley to propose the following resolution on Tuesday, May 2, 2006:

WHEREAS circumstances have changed since the election of the Member for Miramichi Bay-du-Vin as Speaker of the Legislative Assembly, and

WHEREAS some of these circumstances; specifically, the seeking of one party's approval of admission to caucus, the private negotiation of government benefits in exchange for support, and the Speaker's participation in government announcements of projects which are, or have been represented as being, in exchange for the Speaker's support, would create reasonable doubts in the impartiality of the Office of Speaker, and

WHEREAS it is appropriate that this Assembly be given an opportunity to affirm or withhold its support for the Speaker;

BE IT RESOLVED that this Legislative Assembly express its lack of confidence in the Speaker.

WRITTEN QUESTIONS

Question No. 1 by Dr. Ed Doherty, MLA

**Directed to: Hon. Madeleine Dubé
Minister of Family and Community Services**

1. The new maximum rate per day for "room and board" in a New Brunswick nursing home has been set at \$79 beginning January 1, 2007. Is there a minimum rate determined by income level as there is in other provinces?
2. How will assets be evaluated in determining a senior's contribution to nursing home care? Will the 10% per year of liquid assets continue to be considered as part of family income for 5 years?
3. The government has promised that the proceeds from the sale of a principal residence are no longer to be considered part of the liquid assets for assessment purposes; therefore does the \$500 maximum savings account balance for seniors in nursing homes still apply?
4. How does a senior keep the proceeds from the sale of a principal residence separate from other savings?
5. How many nursing home residents will benefit from the changes that will be brought in January 1, 2007, i.e. how many nursing home residents are currently paying more than their OAS and GIS toward their nursing home care?
6. How many veterans in the province have the full cost of their nursing home care covered by the Department of Veterans' Affairs?
7. There was no mention in the budget of the 75%/25% split for proceeds from rental of the principal residence of a nursing home resident. Does that rule still apply? Currently the transfer of the principal residence has a 2 year look back, will this continue? Does that section 6.7 of the Standard Family Contribution Policy no longer apply?
8. Effective January 2007 government has promised that the health care cost of residents in nursing homes will be covered. What medications are included in this health care coverage? Will over the counter medication and incontinent supplies be provided at no charge?

Question No. 2 by Mr. Michael Murphy, MLA

**Directed to: Hon. Bruce Fitch
Minister of Justice and Consumer Affairs**

On April 25, 2006, Justice Minister Fitch, in a Minister's Statement, announced that an additional \$3 million would be invested in the new Moncton Courthouse. This additional funding will be used for underground parking, increasing the total cost of the project to \$31 million.

In 2005, a group of five proponents (the City of Moncton, the Province, Generation Place (Verdiroc), Bernard Cyr and Assumption Life) were working on an alternative project of building the Moncton Courthouse at a different site, which included the potential of building a convention centre, hotel, entertainment center, parking and access road. This proposal was put forward but, in February 2006, Premier Lord announced that the Courthouse would be built where it was originally planned. It was indicated at that time that transferring ownership to the (5) stakeholders could create delays and cost overruns and that any increase to the \$28 million project cost was not acceptable.

Questions:

1. Why was an additional \$3 million added to the project without giving the opportunity to the group of 5 stakeholders to make a proposal to see if they could build this project at a lower cost than the now \$31 million?
2. Because of its location, there is a danger regarding water levels. In building this underground parking, what measures have been taken to ensure the security (water level) of potential users of this underground parking?

3. Will this new addition to the Courthouse project result in any water contamination or affect the water level in any way? If so, how? What steps need to be taken to mitigate any environmental damage that may occur?
4. What environmental study(ies) have been made and what results have been reached on the issue of water level for the Courthouse building and underground parking? Will any of these studies be made available to the public and when?
5. Are there any other budget increases for the Courthouse building being planned over the additional \$3 million that was announced on April 25, 2006? If so, what are they and what are they for?
