Clerk of the Legislative Assembly

APPENDIX "A"

WRITTEN QUESTIONS

Question No. 1 by Dr. Ed Doherty, MLA

**Directed to: Hon. Madeleine Dubé
Minister of Family and Community Services**

1. The new maximum rate per day for "room and board" in a New Brunswick nursing home has been set at \$79 beginning January 1, 2007. Is there a minimum rate determined by income level as there is in other provinces?
2. How will assets be evaluated in determining a senior's contribution to nursing home care? Will the 10% per year of liquid assets continue to be considered as part of family income for 5 years?
3. The government has promised that the proceeds from the sale of a principal residence are no longer to be considered part of the liquid assets for assessment purposes; therefore does the \$500 maximum savings account balance for seniors in nursing homes still apply?
4. How does a senior keep the proceeds from the sale of a principal residence separate from other savings?
5. How many nursing home residents will benefit from the changes that will be brought in January 1, 2007, i.e. how many nursing home residents are currently paying more than their OAS and GIS toward their nursing home care?
6. How many veterans in the province have the full cost of their nursing home care covered by the Department of Veterans' Affairs?
7. There was no mention in the budget of the 75%/25% split for proceeds from rental of the principal residence of a nursing home resident. Does that rule still apply? Currently the transfer of the principal residence has a 2 year look back, will this continue? Does that section 6.7 of the Standard Family Contribution Policy no longer apply?
8. Effective January 2007 government has promised that the health care cost of residents in nursing homes will be covered. What medications are included in this health care coverage? Will over the counter medication and incontinent supplies be provided at no charge?

(Response filed May 25, 2006)

Question No. 2 by Mr. Michael Murphy, MLA

**Directed to: Hon. Bruce Fitch
Minister of Justice and Consumer Affairs**

On April 25, 2006, Justice Minister Fitch, in a Minister's Statement, announced that an additional \$3 million would be invested in the new Moncton Courthouse. This additional funding will be used for underground parking, increasing the total cost of the project to \$31 million.

In 2005, a group of five proponents (the City of Moncton, the Province, Generation Place (Verdiroc), Bernard Cyr and Assumption Life) were working on an alternative project of building the Moncton Courthouse at a different site, which included the potential of building a convention centre, hotel, entertainment center, parking and access road. This proposal was put forward but, in February 2006, Premier Lord announced that the Courthouse would be built where it was originally planned. It was indicated at that time that transferring ownership to the (5) stakeholders could create delays and cost overruns and that any increase to the \$28 million project cost was not acceptable.

Questions:

1. Why was an additional \$3 million added to the project without giving the opportunity to the group of 5 stakeholders to make a proposal to see if they could build this project at a lower cost than the now \$31 million?
2. Because of its location, there is a danger regarding water levels. In building this underground parking, what measures have been taken to ensure the security (water level) of potential users of this underground parking?
3. Will this new addition to the Courthouse project result in any water contamination or affect the water level in any way? If so, how? What steps need to be taken to mitigate any environmental damage that may occur?
4. What environmental study(ies) have been made and what results have been reached on the issue of water level for the Courthouse building and underground parking? Will any of these studies be made available to the public and when?
5. Are there any other budget increases for the Courthouse building being planned over the additional \$3 million that was announced on April 25, 2006? If so, what are they and what are they for?

Question No. 3 by Mr. Rick Brewer, MLA

**Directed to: Hon. Bev Harrison
Minister of Supply and Services**

Re: Waterville Hospital Construction

1. Is this project on schedule and on budget and will it be completed in July 2007?
2. How much money has been allocated in the 2006-07 budget for this project?
3. What is the detailed breakdown for this budget by construction component and specifically in such areas as mechanical, electrical, physical construction, etc.
4. What is the complete list of the tenders that you plan to call in 2006-07 including details by activity, eg. electrical activity that was called in 2005-06?
5. Have all of the tenders to date come in at or under your detailed cost estimates? What are the details of the tenders that have come in above your cost estimates?
6. What are the up-to-date details for your electrical and mechanical tenders? ie. how many tenders have you issued, how many have been awarded, who were the successful proponents and how many tenders remain to be called?

Question No. 4 by Mr. Kelly Lamrock, MLA

**Directed to: Hon. Rose-May Poirier
Minister of Local Government**

There is an outstanding commitment from last year's Throne Speech to establish a provincial capital commission. Why has this not happened, and does it remain a government commitment?

Question No. 5 by Mr. Kelly Lamrock, MLA

**Directed to: Hon. Madeleine Dubé
Minister of Family and Community Services**

Currently, there is an unacceptably long wait list for day care spaces at the Centre Communautaire Ste. Anne, the principal location for francophone early childhood education. It is vitally important to francophone parents that their children be able to learn in their first language. What will be done to ensure that there are enough francophone day care spaces in Fredericton?

Question No. 6 by Mr. Kelly Lamrock, MLA

**Directed to: Hon. Claude Williams
Minister of Education**

Currently, the province is paid for the education provided in New Brunswick schools to First Nations students from federal funds designated for services to First Nations peoples. It is vitally important that First Nations peoples have input into the education provided by these schools. Can the Minister advise what current mechanisms are in place for schools to report back to, and have input from, First Nations in the provision of education to aboriginal students?

Question No. 7 by Mr. Kelly Lamrock, MLA

**Directed to: Hon. Brenda Fowlie
Minister of Energy**

When the restructuring of N.B. Power took place, there was a commitment from government that the unionized status of employees would be protected. However, several members of the I.B.E.W. union were forced into a new unit which held a recertification vote, which failed. These workers have now lost their seniority and job security rights because of restructuring. Can the Minister investigate the situation and advise what can be done to meet the guarantee these employees were given that their unionized status will be protected?

Question No. 8 by Mr. Kelly Lamrock, MLA

**Directed to: Hon. Brad Green, Q.C.
Minister of Health**

Medicare is a basic tenet of Canadian citizenship. Recently, I have brought to the Minister's attention cases where a Canadian citizen is denied Medicare coverage because no province will accept responsibility to deem that citizen a resident of their province. Can the Minister advise what work is being undertaken by him, and his counterparts across Canada, to close legislative gaps to ensure Canadian citizens aren't denied Medicare benefits because of loopholes in provincial law?

Question No. 9 by Mr. Kelly Lamrock, MLA

**Directed to: Hon. Paul Robichaud
Minister of Transportation**

When can we expect construction to begin on the Northside bridge ramp on the Westmorland Street Bridge in Fredericton?

Question No. 10 by Mr. Kelly Lamrock, MLA

**Directed to: Hon. Brad Green, Q.C.
Minister of Health**

One of the main barriers to coming to New Brunswick, as cited by recent immigrants, is the lack of recognition of foreign credentials in professions. While many professions are self-regulating, government has to take a leadership role in ensuring that this public policy goal is met.

Currently the New Brunswick College of Psychologists is going through a debate over the recognition of foreign degrees and experience. Can the Minister advise what discussions he has had with the College to ensure that they are giving all new Canadians fair treatment in evaluating their fitness to be licensed?

Question No. 11 by Ms. Robichaud, MLA

**Directed to: Hon. Claude Williams
Minister of Education**

1. According to page 41 of the *Main Estimates 2006-2007*, the ordinary account spending for the Department of Education increased by approximately \$26.6 million over the revised estimates for the previous year. Could the Minister provide a detailed description of how this increase will be broken down and what program areas it will fund?
2. Can the Minister identify the funding required to cover the 2006-2007 wage increase for teachers and where it is reflected in the Main Estimates?
