WHEREAS the significant swell in property value assessments in recent years has drastically increased property tax bills and is generating undue financial strain on individuals and families; and

WHEREAS the downturn in global markets, restriction to credit and a national recession have made paying increased property tax bills increasingly difficult for all New Brunswickers; and

WHEREAS the New Brunswick government and the municipalities must be held accountable for additional revenues that may be generated by increased property assessments and because no property owner should have to pay higher property taxes without explanation and proof that the market value of their property has increased; and

WHEREAS both provincial and municipal governments have a responsibility to be open, fair and transparent with regard to taxation;

BE IT RESOLVED that the Legislative Assembly urge the government to pass legislation to cap property tax assessments to protect individuals and business against drastic increases in tax bills;

BE IT FURTHER RESOLVED that this Legislative Assembly urge this government to work with all stakeholders across the province in order to promote home ownership and to create a positive business environment so that New Brunswick may prosper and so that the issue of property taxes is not transferred to municipalities.
