Prayers.

Mr. Alward gave Notice of Motion 54, that on Thursday, April 23, 2009, he would move the following resolution, seconded by Mr. Fitch:

WHEREAS economies across Canada have been in a state of decline during recent months and local, provincial and federal governments have been searching for tools to infuse money into regions to generate more stable financial markets; and

WHEREAS the province of New Brunswick is currently facing an extremely difficult financial position with yearly deficits increasing and the provincial net debt growing at an unsustainable rate that will have negative impacts on the province's finances for decades and generations to come; and

WHEREAS research and development funds must be a key component to revitalizing the New Brunswick economy by investing money in education, technology, infrastructure, and industry; and

WHEREAS New Brunswick currently ranks as one of the lowest amongst all Canadian Provinces for investments in research and development from federal, provincial, business, nonprofit organizations, higher education, and foreign investment sectors; therefore

BE IT RESOLVED that this Legislative Assembly urge the government to seek out every available resource for increased funding including new federal, provincial, and private industry funds so that this vital component of our economy can help New Brunswickers and our businesses revitalize our provincial economy in order to return this province to one of job creation, prosperity, and a leader in technology, research and development of world class products and services.
