WHEREAS the Point Lepreau refurbishment project is three years behind schedule and \$1 billion over budget;

WHEREAS the refurbishment contract was signed by the former Progressive Conservative government in 2006;

WHEREAS the delays in the refurbishment project require the province of New Brunswick to purchase electricity from other jurisdictions at a cost of approximately \$1 million a day;

WHEREAS the Minister of Energy has stated in this House that his government will accept nothing less than full compensation from the government of Canada for the cost of replacement electricity;

WHEREAS the Prime Minister of Canada has stated publicly that the federal government will only honour its contractual obligations in the refurbishment project;

BE IT THEREFORE RESOLVED that the Legislative Assembly call on the government of New Brunswick to demand from the federal government full compensation of the cost of replacement power resulting from the delay in the refurbishment project at Point Lepreau, for the good of all New Brunswickers.

WHEREAS affordable tuition is very important to allow students access to post-secondary education in New Brunswick, and

WHEREAS it is widely acknowledged that an educated work force is vital to the future of New Brunswick;

BE IT RESOLVED that the Legislature urge the government to ensure that a public university education in New Brunswick will continue to be affordable and accessible.

[Debate interrupted due to expiration of time.]

Motion 22 by Mr. Collins, seconded by Mr. Albert to propose the following resolution on Thursday, December 23, 2010:

WHEREAS post secondary education is crucial to the future prosperity of New Brunswick;

AND WHEREAS the previous Liberal government made record investments in our universities and community colleges including funding for both infrastructure and programs;

AND WHEREAS the previous Liberal government brought forward one of the most comprehensive programs in the country to address access to post secondary education and student debt;

BE IT THEREFORE RESOLVED that the Legislative Assembly urge the government to continue to demonstrate its commitment to post secondary education to ensure continued access to post secondary education remains a priority.

Motion 40 by Mr. Boudreau, seconded by Mr. Doucet to propose the following resolution on Thursday, April 14, 2011:

WHEREAS the Agreement of March 25, signed with the federal government regarding the Saint John Harbour Bridge, clearly states in Section 1.2 that “this Agreement does not deal with certain commitments made by Canada and the Province with regard to the forgiveness by Canada of the debt owing to Canada by the SJHBA or its successors or assigns”; and

WHEREAS this section makes it very clear that forgiveness by Canada of the Bridge debt is not part of this Agreement; and

WHEREAS Section 1.2 of the Agreement also states “No prior document, negotiation, provision, undertaking or agreement in relation to the subject of the Agreement has legal effect, unless incorporated by reference into this Agreement”; and

WHEREAS this section makes it clear that any previous discussions or tentative agreements on matters relating to the Saint John Harbour Bridge now have no legal effect unless specifically stated within the Agreement of March 25;

BE IT RESOLVED THAT the Legislature ask the Government to admit that there is no agreement with the Government of Canada to forgive the debt of the Saint John Harbour Bridge Authority; and

BE IT FURTHER RESOLVED THAT the Legislature ask the Government to admit that when the Government of New Brunswick took over the Saint John Harbour Bridge, it also took on the debt owed by the Bridge to the Government of Canada.

Motion 81 by Mr. Fraser, seconded by Mr. Melanson to propose the following resolution on Thursday, May 12, 2011:

WHEREAS prevention is an important component of health and wellness;

WHEREAS early diagnosis of potential conditions can save on future health care costs, both to government and the consumer;

WHEREAS early diagnosis of potential conditions also facilitates better educational opportunities for children with vision problems;

WHEREAS the Optometrists Association of New Brunswick has requested that government implement a mandatory vision testing program for all preschool age children;

WHEREAS such a program would enable the early diagnosis, identification and treatment of potential future vision problems;

BE IT RESOLVED that the House urge the government to immediately implement a mandatory vision testing program for all preschool age children in New Brunswick.

Motion 82 by Mr. Collins, seconded by Mr. Melanson to propose the following resolution on Thursday, May 12, 2011:

WHEREAS from 1999 to 2006, New Brunswick’s population was in a steady decline;

WHEREAS the former Liberal government created a Population Growth Secretariat to reverse the trend of out migration;

WHEREAS the Population Growth Secretariat was successful in growing the population by 6,000 people between 2006 and 2010;

WHEREAS the current Conservative government has eliminated the Population Growth Secretariat;

WHEREAS the Opposition strongly believes that population growth is an important factor in improving the province's economic outlook, and by eliminating the secretariat, this Conservative government has indicated that population growth is no longer a priority;

BE IT RESOLVED that the House urge the government to reinstate the Population Growth Secretariat to demonstrate its commitment to making population growth a priority.

Motion 83 by Mr. Bernard LeBlanc, seconded by Mr. Kenny to propose the following resolution on Thursday, May 12, 2011:

WHEREAS, in the past, seniors whose wages were not sufficient to pay the full cost of nursing home care were required to sell their property and use their assets in order to pay the cost of their long-term care;

WHEREAS the policy requiring them to sell their property and use their assets in order to pay nursing home costs left many seniors in poverty, since they had to support their spouses in nursing homes;

WHEREAS, currently, the value of a senior's home and other property and assets are not included in calculating the long-term care contribution;

WHEREAS seniors had peace of mind, because their property and assets were protected from the financial assessments used to calculate the costs of long-term nursing home care;

BE IT RESOLVED that the House urge the government to assure seniors that the calculation relating to their long-term care continues to exclude the value of their homes as well as their other property and assets.

WHEREAS the role of Invest NB in economic development has never been clearly explained to the people of New Brunswick;

WHEREAS the people of northern New Brunswick and the Miramichi region are unsure what role, if any, Invest NB plays in their economic outlook;
