GOVERNMENT PRIVATE MEMBERS' MOTIONS

Motion 55 by Mr. Wetmore, seconded by Mr. Stewart to propose the following resolution on Friday, April 25, 2014:

WHEREAS a better future for New Brunswick depends on improved economic prosperity; and

WHEREAS a more prosperous New Brunswick will improve the standard of living of the province's residents; and

WHEREAS the Canadian Medical Association's consultation with Canadians about the social determinants of health has delivered a clear message: poverty is the main issue that must be addressed to improve the health of Canadians and eliminate health inequities; and

WHEREAS improvements to an individual's standard of living are shown to have a direct correlation with significantly improved health outcomes; and

WHEREAS improvements to the standard of living are shown to have a direct correlation with significantly improved literacy and numeracy outcomes; and

WHEREAS our future prosperity depends on providing quality opportunities to our young people and young families that will keep them in New Brunswick; and

WHEREAS the development of natural resources has been shown to create meaningful economic growth and employment in other Canadian provinces; and

WHEREAS the creation of jobs in the oil and gas sector in our province will enable many New Brunswickers to end their commute to western Canada, improving their and their family's quality of life; and

WHEREAS New Brunswick is facing serious fiscal challenges that could threaten the services provided to our residents; and

WHEREAS the Government of New Brunswick can leverage the province's natural resources to improve our economic prosperity and for the betterment of our society; and

WHEREAS the recent volatility in natural gas pricing has shown the importance for New Brunswick to develop a domestic supply of natural gas for the benefit of our residents and our industries; and

WHEREAS Public Health England has concluded that the risks to public health from exposure to emissions from shale gas extraction are low if operations are properly run and regulated; and

WHEREAS the rules and regulations New Brunswick has adopted for the oil and gas sector to ensure the protection of our water and environment are described by Deloitte, after studying several North American jurisdictions, as "more stringent and more demanding than all other markets examined"; and

WHEREAS researchers from institutions such as the University of Michigan, the US Geological Survey, Stanford University, Texas A&M University, Syracuse University, University of California at Berkeley, Penn State, and the Royal Academy of Engineering along with regulators from the states of Arkansas, Colorado, Louisiana, North Dakota, Ohio, Oklahoma, Pennsylvania and Texas have all stated their opinion that properly regulated shale gas development using the hydraulic fracturing process is safe to groundwater and the environment; and

WHEREAS the environmental benefits of gas development using hydraulic fracturing have been confirmed by the International Panel on Climate Change in their recent Mitigation of Climate Change report which stated "the rapid deployment of hydraulic

fracturing and horizontal drilling technologies, which has increased and diversified the gas supply and allowed for a more extensive switching of power and heat production from coal to gas; this is an important reason for the reduction of GHG emissions in the United States”;

BE IT THEREFORE RESOLVED THAT the Legislative Assembly of New Brunswick declare its support for the Government of New Brunswick in proceeding with the immediate responsible expanded development of a natural gas industry, that includes the use of hydraulic fracturing, in our province.

CONCLUDED

Motion 17 by Mr. Tait. Debated and carried December 4, 2013.

OPPOSITION MEMBERS' BUSINESS

OPPOSITION MEMBERS' PUBLIC BILLS FOR SECOND READING

Bill 7, An Act to Amend the Environmental Trust Fund Act - Mr. Bernard LeBlanc
 Bill 10, An Act to Amend the Environmental Trust Fund Act - Mr. Bernard LeBlanc
 Bill 18, An Act to Amend the Smoke-free Places Act - Mr. Arseneault
 Bill 48, An Act to Amend the Members' Conflict of Interest Act - Mr. Boudreau

OPPOSITION MEMBERS' MOTIONS

Debatable Motions

Motion 5 by Mr. Arseneault, seconded by Mr. Boudreau to propose the following resolution on Thursday, November 14, 2013:

WHEREAS 12 public consultations were held between September 16 and October 9, leading to a renewal of *Overcoming Poverty Together – The New Brunswick Poverty Reduction Plan*;

WHEREAS the province's Poverty Reduction Plan had the following objective: “By 2015, New Brunswick will have reduced income poverty by 25% and deep income poverty by 50%, and will have made significant progress in achieving sustained economic and social inclusion.”;

WHEREAS the province's Poverty Reduction Plan had established specific priority actions, both immediate and over a five year period;

BE IT THEREFORE RESOLVED that the Legislative Assembly of New Brunswick urge the provincial government to table in the House within 30 days a detailed progress report on the province's Poverty Reduction Plan that demonstrates goals met and identifies remaining work and a timeline for achieving unmet goals.

[Debate interrupted due to expiration of time]

Motion 13 by Mr. Fraser, seconded by Mr. D. Landry to propose the following resolution on Thursday, November 28, 2013:

WHEREAS, in 2008, the then Department of Transportation—DOT—implemented a new Asset Management Business Framework to better manage the long-term investment requirements of the province’s aging highway infrastructure; and

WHEREAS the Asset Management Business Framework—AMBF—was implemented to make the most efficient use of highway capital repair dollars and take the politics out of paving; and

WHEREAS the Auditor General observed that, in the first three years after adopting the Asset Management Business Framework with optimal funding in place, the department noted positive results; and

WHEREAS the Auditor General has noted that the asset management methodology is sound; and

WHEREAS the Auditor General has concluded that, although the department has the appropriate tools in place to identify and prioritize required highway maintenance projects, current funding levels do not allow for completion of an appropriate level of highway maintenance on a timely basis; and

WHEREAS the Auditor General has expressed concern that this will result in deferring required maintenance to future periods at a greater overall cost to the province; and

WHEREAS it is reported in the Auditor General’s report that 40% of capital maintenance projects chosen for completion are not recommended through the asset management capital planning process, and it was suggested that some of these are chosen for political reasons;

BE IT THEREFORE RESOLVED that the Legislature urge the government to return to the principles of asset management that have been implemented since 2008 to restore optimum long-term value to New Brunswick highway capital repairs.

Motion 38 by Mr. Collins, seconded by Mr. Boudreau to propose the following resolution on Thursday, February 27, 2014:

WHEREAS on any given day, many animals are subjected to improper care and treatment which causes them to suffer;

WHEREAS a major issue of concern is the tethering of animals for extended periods or in severe weather conditions;

WHEREAS there is also a need to ensure animals have access to adequate food, water and shelter;

BE IT THEREFORE RESOLVED that the Legislative Assembly urge the provincial government to bring forward amendments to the *Society for the Prevention of Cruelty to Animals Act* or its regulations to strengthen our animal protection laws and ensure these concerns are addressed.

Motion 41 by Mr. Doucet, seconded by Mr. Melanson to propose the following resolution on Thursday, February 27, 2014:

WHEREAS the Premier had promised after the floods of 2010 a two-year project to develop a Comprehensive Emergency Measures plan “to build a robust emergency program for the region”; and

WHEREAS this plan has failed its objective; and
 WHEREAS this plan was to provide training for responders and exercises to validate the emergency plans; and

WHEREAS this plan failed this objective; and
 WHEREAS local citizens involved in the discussions were told at a planning meeting in August 2012, that this planning was no longer needed; and

WHEREAS southwestern New Brunswick was hit with a serious ice storm that left thousands of New Brunswick citizens without power in freezing weather for up to 13 days; and

WHEREAS representatives from the Emergency Measures Organization arrived on the scene well after the fact and certainly added to the confusion without communicating a plan with anyone; and

WHEREAS representatives of the Emergency Measures Organization left rural New Brunswick people to fend for themselves, telling people to call their local fire department; and

WHEREAS people in rural Charlotte County were given no directions from the Emergency Measures Organization on what to do or where to go; and

WHEREAS the Emergency Measures Organization and government did not provide communications updates nor advisories to the public until well after the event; and

WHEREAS the Emergency Measures Organization and government excuses as to why there was a breakdown in communications, demonstrate the Emergency Measures Organization failure since these were issues that their planning was supposed to address; and

WHEREAS the Emergency Measures Organization and the government would not allow localized states of emergency to be called when subsection 10(2) of the *Emergency Measures Act* clearly allows this community responsibility; and

WHEREAS the role of the Emergency Measures Organization in the emergency demonstrated that no “robust” plan appeared to be in place to deal with the emergency; and

WHEREAS the document provided to the Standing Committee on Public Accounts on request to the Department of Public Safety on October 29, 2013, and tabled on December 16, 2013, indicated in the Executive Summary that no “robust” plan was in place;

BE IT THEREFORE RESOLVED that the Legislative Assembly of New Brunswick ask the Auditor General to examine the Department of Public Safety and in particular the Emergency Measures Organization to determine if a comprehensive plan is in place for the next emergency and if staff are qualified and properly trained to protect the people of New Brunswick in this role and whether paying for these positions from the NB911 Service Fund is an appropriate use of the Fund; and

BE IT FURTHER RESOLVED that the Emergency Measures Organization be brought to the Standing Committee on Public Accounts within 120 days for detailed questioning by the Committee; and

BE IT FURTHER RESOLVED that the Emergency Measures Organization be scheduled to appear at the Standing Committee on Public Accounts every year thereafter.

[Debate interrupted due to expiration of time]

Motion 44 by Mr. Bernard LeBlanc, seconded by Mr. Doucet to propose the following resolution on Thursday, March 27, 2014:

WHEREAS the government intends to implement new natural gas royalties effective April 1; and

WHEREAS the proposed royalties are much lower than were recommended in the LaPierre Report; and

WHEREAS the new natural gas royalties are poised to be the lowest in North America; and

WHEREAS the new royalties are structured to promote rapid, indiscriminate development of shale gas reserves without regard to any long term benefit from the resource; and

WHEREAS in this race for the bottom in resource value, the government is squandering the potential for any real wealth that might come to the province from these resources; and

WHEREAS these are non-renewable resources which, if squandered now, cannot be replaced; and

WHEREAS the government has not shared the advice papers on which these radically low royalty plans have been developed; and

WHEREAS this matter is vitally important to New Brunswick people and our future;

BE IT THEREFORE RESOLVED that the Legislative Assembly of New Brunswick urge the provincial government to delay the implementation of the new royalties to allow for the proposed natural gas royalty regulations to be referred to the Standing Committee on Law Amendments along with the relevant studies and recommendations supporting the royalty plan, and provide a reasonable opportunity for New Brunswick citizens to review this information, provide feedback and receive responses from officials of the Department of Energy and Mines in regards to the rationale for the implementation of this particular royalty scheme.

Motion 47 by Mr. Arseneault, seconded by Mr. Melanson to propose the following resolution on Thursday, April 17, 2014:

WHEREAS the Canada Health Accord has expired;

AND WHEREAS the Harper government plans to transfer money to the provinces on a per capita basis;

AND WHEREAS this formula disadvantages smaller provinces like New Brunswick with a smaller population base and an aging population;

AND WHEREAS this change will result in the loss of millions of dollars desperately needed to fund quality health services in New Brunswick;

AND WHEREAS the Premier and the Health Minister have not stood up for the interests of New Brunswick as confirmed by the federal Health Minister who said she did not receive a letter from the Minister protesting the change;

AND WHEREAS the future of our healthcare system is at stake unless secure, long term funding is made available;

BE IT THEREFORE RESOLVED that the Legislature urge the Premier and the Minister of Health to vigorously object to the Harper government's changes to healthcare funding and fight for a secure, long term federal-provincial funding arrangement for healthcare in New Brunswick.

Motion 48 by Mr. Boudreau, seconded by Mr. Collins to propose the following resolution on Thursday, April 17, 2014:

WHEREAS post-secondary education and training is crucial to the future growth and prosperity of our province;

WHEREAS the tuition at our post-secondary institutions has risen an average of over 10% in the past four years;

WHEREAS rising tuition costs represent a barrier to access for those wishing to enroll in post-secondary education;

WHEREAS the Alward government has done very little to improve access to post-secondary education;

WHEREAS the Alward government has done very little to address issues of student debt;

WHEREAS despite committing to a review of access issues, we have yet to see any positive changes;

BE IT THEREFORE RESOLVED that the Legislature urge the Minister of Post-Secondary Education, Training and Labour to immediately bring forward a plan that will address barriers in access to post-secondary education.

[Debate interrupted due to expiration of time]

Motion 49 by Mr. Melanson, seconded by Mr. Boudreau to propose the following resolution on Thursday, April 17, 2014:

WHEREAS many factors contribute to economic growth;

WHEREAS a qualified workforce is critical to job creation and economic sustainability;

WHEREAS the business community has identified the lack of access to a qualified workforce as a significant roadblock to growth;

WHEREAS the Alward government has not addressed this issue by developing a fully integrated job creation plan that would include specific initiatives to meet this need;

WHEREAS the official opposition called for a provincial jobs summit in 2012, the Alward government has failed to act, and the province needs to take urgent action to engage the public in preparing for a provincial jobs summit;

BE IT THEREFORE RESOLVED that the Legislative Assembly of New Brunswick urge the provincial government to organize and facilitate a provincial jobs summit, which would bring together stakeholders from the business community, the nonprofit sector, and postsecondary institutions in order to understand the needs, identify the gaps, and propose a solution.

Motion 50 by Mr. Boudreau, seconded by Mr. Bertrand LeBlanc to propose the following resolution on Thursday, April 17, 2014:

WHEREAS troubling allegations have been made public concerning the conduct of the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries wherein both ministers are accused of discussing and interfering in the prosecution of the Deputy Premier's brother under a provincial statute;

WHEREAS these allegations are very serious;

WHEREAS the conduct of the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries is not the subject of a judicial proceeding;

WHEREAS no authority is tasked with investigating or reporting on the conduct of the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries regarding the prosecution of the Deputy Premier's brother in relation to such allegations;

WHEREAS New Brunswickers deserve to know the full truth as to whether these allegations are true and whether or not the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries acted improperly;

WHEREAS an independent third-party inquiry is one way for New Brunswickers to know whether or not the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries indeed acted improperly;

BE IT THEREFORE RESOLVED that the Legislative Assembly of New Brunswick urge the Premier of New Brunswick to call an independent third-party inquiry into the conduct of the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries as soon as possible;

BE IT FURTHER RESOLVED that the third party that carries out this independent inquiry be tasked with establishing the truth of such allegations and determining whether the conduct of the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries was improper or not;

BE IT FURTHER RESOLVED that the third party tasked with this independent inquiry be empowered to subpoena all documents and compel testimony from all persons it deems, at its discretion, necessary in order to reveal the truth regarding the conduct of the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries;

AND BE IT FURTHER RESOLVED that the third party tasked with this independent inquiry prepare a report detailing its investigation, its findings, and its conclusions and release it to the public as soon as possible.

Motion 51 by Mr. Haché, seconded by Mr. Arseneault to propose the following resolution on Thursday, April 17, 2014:

WHEREAS, after four years of delay, the New Brunswick government finally announced a plan for the forestry sector on March 12, 2014;

WHEREAS the New Brunswick government has not revealed several important details regarding its forestry plan, including details on its consultations, the scientific evidence upon which the decisions were based, the locations of conservation areas, and the forestry businesses with which the government met to discuss increased timber allocations, detailed contracts for Crown timber allocations, and the price charged to forestry businesses for Crown timber;

WHEREAS New Brunswickers deserve to know all the details concerning this government's forestry strategy;

BE IT THEREFORE RESOLVED that the Legislative Assembly call upon the New Brunswick government to release all information about the preparation and release of its forestry plan, including, but not limited to, details on its consultations, the scientific evidence upon which the decisions were based, the locations of conservation areas, and the forestry businesses with which the government met to discuss increased timber allocations, detailed contracts for Crown timber allocations, and the price charged to businesses for Crown timber.
