Motion 13 by Mr. Fraser, seconded by Mr. D. Landry to propose the following resolution on Thursday, November 28, 2013:

WHEREAS, in 2008, the then Department of Transportation—DOT—implemented a new Asset Management Business Framework to better manage the long-term investment requirements of the province's aging highway infrastructure; and

WHEREAS the Asset Management Business Framework—AMBF—was implemented to make the most efficient use of highway capital repair dollars and take the politics out of paving; and

WHEREAS the Auditor General observed that, in the first three years after adopting the Asset Management Business Framework with optimal funding in place, the department noted positive results; and

WHEREAS the Auditor General has noted that the asset management methodology is sound; and

WHEREAS the Auditor General has concluded that, although the department has the appropriate tools in place to identify and prioritize required highway maintenance projects, current funding levels do not allow for completion of an appropriate level of highway maintenance on a timely basis; and

WHEREAS the Auditor General has expressed concern that this will result in deferring required maintenance to future periods at a greater overall cost to the province; and

WHEREAS it is reported in the Auditor General's report that 40% of capital maintenance projects chosen for completion are not recommended through the asset management capital planning process, and it was suggested that some of these are chosen for political reasons;

BE IT THEREFORE RESOLVED that the Legislature urge the government to return to the principles of asset management that have been implemented since 2008 to restore optimum long-term value to New Brunswick highway capital repairs.

WHEREAS there is also a need to ensure animals have access to adequate food, water and shelter;

WHEREAS the Premier had promised after the floods of 2010 a two-year project to develop a Comprehensive Emergency Measures plan "to build a robust emergency program for the region"; and

WHEREAS this plan has failed its objective; and

WHEREAS this plan was to provide training for responders and exercises to validate the emergency plans; and

WHEREAS this plan failed this objective; and

WHEREAS local citizens involved in the discussions were told at a planning meeting in August 2012, that this planning was no longer needed; and

WHEREAS southwestern New Brunswick was hit with a serious ice storm that left thousands of New Brunswick citizens without power in freezing weather for up to 13 days; and

WHEREAS representatives from the Emergency Measures Organization arrived on the scene well after the fact and certainly added to the confusion without communicating a plan with anyone; and

WHEREAS representatives of the Emergency Measures Organization left rural New Brunswick people to fend for themselves, telling people to call their local fire department; and

WHEREAS people in rural Charlotte County were given no directions from the Emergency Measures Organization on what to do or where to go; and

WHEREAS the Emergency Measures Organization and government did not provide communications updates nor advisories to the public until well after the event; and

WHEREAS the Emergency Measures Organization and government excuses as to why there was a breakdown in communications, demonstrate the Emergency Measures Organization failure since these were issues that their planning was supposed to address; and

WHEREAS the Emergency Measures Organization and the government would not allow localized states of emergency to be called when subsection 10(2) of the *Emergency Measures Act* clearly allows this community responsibility; and

WHEREAS the role of the Emergency Measures Organization in the emergency demonstrated that no “robust” plan appeared to be in place to deal with the emergency; and

WHEREAS the document provided to the Standing Committee on Public Accounts on request to the Department of Public Safety on October 29, 2013, and tabled on December 16, 2013, indicated in the Executive Summary that no “robust” plan was in place;

BE IT THEREFORE RESOLVED that the Legislative Assembly of New Brunswick ask the Auditor General to examine the Department of Public Safety and in particular the Emergency Measures Organization to determine if a comprehensive plan is in place for the next emergency and if staff are qualified and properly trained to protect the people of New Brunswick in this role and whether paying for these positions from the NB911 Service Fund is an appropriate use of the Fund; and

BE IT FURTHER RESOLVED that the Emergency Measures Organization be brought to the Standing Committee on Public Accounts within 120 days for detailed questioning by the Committee; and

BE IT FURTHER RESOLVED that the Emergency Measures Organization be scheduled to appear at the Standing Committee on Public Accounts every year thereafter.

WHEREAS a qualified workforce is critical to job creation and economic sustainability;

WHEREAS the Alward government has not addressed this issue by developing a fully integrated job creation plan that would include specific initiatives to meet this need;

WHEREAS no authority is tasked with investigating or reporting on the conduct of the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries regarding the prosecution of the Deputy Premier's brother in relation to such allegations;

WHEREAS New Brunswickers deserve to know the full truth as to whether these allegations are true and whether or not the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries acted improperly;

WHEREAS an independent third-party inquiry is one way for New Brunswickers to know whether or not the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries indeed acted improperly;

BE IT THEREFORE RESOLVED that the Legislative Assembly of New Brunswick urge the Premier of New Brunswick to call an independent third-party inquiry into the conduct of the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries as soon as possible;

BE IT FURTHER RESOLVED that the third party that carries out this independent inquiry be tasked with establishing the truth of such allegations and determining whether the conduct of the Deputy Premier and the Minister of Agriculture, Aquaculture and Fisheries was improper or not;

WHEREAS while in Opposition, the Premier and the Conservative Caucus condemned the changes made by the previous government to the entry point for early French immersion;

AND WHEREAS prior to the provincial election of 2010, the Minister of Education also wrote several letters to local newspapers decrying the changes to the entry point for early French immersion;

AND WHEREAS in the 2010 PC Platform, Premier Alward committed to review the decisions to change the entry point for early French immersion and to implement new solutions, if required, in time for the 2012 school year;

WHEREAS the Alward government provided the New Brunswick Teachers' Federation with an opportunity to negotiate the reform of its pension plan;

BE IT THEREFORE RESOLVED that the Legislative Assembly urge the provincial government to halt plans for implementation of the shared risk pension plan model and to immediately announce a new and inclusive process of engagement for public pension reform whereby the government would meet with bargaining and non-bargaining groups as well as other pension plan representatives to review all relevant financial information, discuss all possible options for pension reform, and establish a process for negotiation.

WHEREAS the Alward government broke its three key promises as they failed to balance the books without raising taxes or cutting services;

WHEREAS the Minister of Finance has missed the financial targets established throughout the mandate of this Conservative government;

WHEREAS the Finance Minister is laying blame on “horrendous” demands by members of the Conservative Caucus;

WHEREAS the Minister of Finance has brought in a bill entitled *Fiscal Transparency and Accountability Act* which has been referred to by pundits as a gimmick;

WHEREAS the bill purports to fine Members of the Executive Council when budget targets are not met;

WHEREAS the Alward government would have missed its own targets in 2011 and 2013, and would miss them again this year;

WHEREAS, if the aforementioned provisions of this bill were in place when the Alward government came to power, and considering that they have missed their targets three times, the Premier and his Ministers would owe New Brunswickers \$135,000 in fines;

BE IT THEREFORE RESOLVED that the Legislative Assembly of New Brunswick urge the Premier and the members of the Executive Council to honour those provisions retroactively and remit pay the sum of \$135,000 to the province;

BE IT FURTHER RESOLVED that the Legislative Assembly of New Brunswick urge the Finance Minister to reveal the aforementioned “horrendous” spending demands made by his caucus colleagues and clarify if they are the reason that past budget targets were missed.

WHEREAS the province also entered into a land swap with this company without competitive process;

WHEREAS the site was selected without due consideration of the Department of Education policy related to the criteria for school site selections;

WHEREAS there were serious issues related to the availability of potable water at the site;

WHEREAS as a result of issues related to water, a decision was made that the Town of Woodstock would annex the property and both the province and the municipality would pay to bring water to the site;

WHEREAS the residents of Bedell were not provided the opportunity to have a say on the annexation of the property which impacted their tax base;

WHEREAS while the provision of water to the site created an additional burden for taxpayers, it created a tremendous benefit for the owner of the subdivision;

WHEREAS the Education critic attempted to obtain answers without success from the Minister of Education as to whether education policies and guidelines were followed on the selection of the school site;

WHEREAS the Opposition filed a Right to Information Request for documentation related to the selection of the school's site including all documentation on environmental testing and documentation that would establish whether or not the Premier's Office interfered in the selection process;

WHEREAS this information which contains e-mails from the Premier's Office to departmental staff is also incomplete;
