# Introduction

The *Fees Act* (see **Appendix A**) received Royal Assent in the spring of 2008. This legislation, which applies to Part I of the public service, established a transparent process governing fees charged by government departments.

It requires detailed information to be made public on all upcoming fee increases and all new fees at least 60 days before implementation by government departments.

The Act also specifies that, by January 31<sup>st</sup> each year, the Minister of Finance and Treasury Board must file a document containing such information with the Clerk of the Legislative Assembly. The 2024 document contains detailed information regarding fee changes and/or new fees planned by government departments for the upcoming fiscal year of 2024-2025.

The report also includes information such as the legal authority to charge each fee, the current fee amount, the new fee amount, effective date of the change, revenue details, and departmental contact information.

The first section in the 2024 Annual Report summarizes fee changes and/or new fees approved by Treasury Board since publication of the 2023 Annual Report.

The second section summarizes upcoming fee changes and/or new fees approved by Treasury Board for the fiscal year 2024-2025. In keeping with the requirement of 60-day minimum notice to the public, none of these fees will take effect until at least April 1, 2024. It is recommended that the effective dates specified in this report be verified with the respective departments as they may be extended following the publication of this report.

It should be noted that the *Fees Act* does allow a department to create or increase fees during the upcoming fiscal year. If this occurs, the individual department will file a document with the Clerk of the Legislative Assembly containing the same type of details as are included in this report. The fee change is also subject to the requirement of a minimum 60-day notice to the public.

If there are any mid-year changes, the details of these single filings will be summarized and published in the 2025 report on fees. This compilation will maintain accuracy and transparency concerning fees.

# How to Read this Report

Section 3(2) of the *Fees Act* requires this *Annual Report on Fees* to present the following information for new and increased fees proposed for the next fiscal year:

- (a) the name of the department that proposed the fee;
- (b) the name of the fee;
- (c) the legislative authority for the fee;
- (d) the amount of the current fee, if any;
- (e) the amount of the new fee or the increased fee;
- (f) the effective date for the new fee or the increased fee;
- (g) the total annual revenue expected from the fee;
- (h) the change in the annual revenue expected from the fee; and
- (i) the name of the contact person.

In this report, the above information is presented in the following format:

| Department Name  | Name of the fee  |
|--|--|
| <b>Contact:</b><br>Name, Telephone Number (506)  | <i>Name of the Act</i><br>Regulation Number  |
| <b>Current Fee:</b> \$X<br><b>Proposed Fee:</b> \$Y<br><b>Effective Date:</b> Month, Day, Year | <b>New Annual Revenue Estimate:</b> \$AA,AAA<br><br><b>Change in Annual Revenue:</b> \$B,BBB |
| <b>Comments:</b>   |  |

Readers should note that “New Annual Revenue Estimate” presents the total expected revenue from the fee at the proposed or increased rate for the upcoming fiscal year. “Change in Annual Revenue” indicates how much additional annual revenue is expected per fiscal year from the new fee rate, as opposed to the prior rate.

While the Minister of Finance and Treasury Board is responsible to file this document each January with the Clerk of the Legislative Assembly, information about particular fees should always be obtained from the specific departments and contacts listed in the description of each fee.

This document, and future editions, will be posted in the Publications section of the Finance and Treasury Board department’s website at

<http://www2.gnb.ca/content/gnb/en/departments/finance/publications.html>

General information about fees charged by all government departments is available on the government’s web-based Directory of Services. This directory is located at

<http://www2.gnb.ca/content/gnb/en/services.html> (Key word: fees)

| Comments: Registration of harvested deer by hunters is mandatory. Hunters will now be required to pay \$4.00 directly to a registration agent. Deer registration agents are designated annually by the Department of Natural Resources and Energy Development (DNRED) to register harvested deer. Hunters who prefer not to pay an agent for harvest registration will have the option to register their deer harvest using the existing online harvest registration system, or at select DNRED offices that are open for deer registration, both of which are free-of-charge. |                 |  |        |

| <b>Comments:</b> In response to stakeholder interest, the Department of Natural Resources and Energy Development is establishing a one-week season extension for white-tailed deer hunting. The season extension will immediately follow the regular firearms deer season in November. This season will be limited to muzzle-loading firearms only.  |                 |   |         |
| To participate in the additional hunting opportunity provided by the muzzleloader-only season extension, resident and non-resident deer licence holders will be required to purchase a muzzleloader authorization for their licence. To ensure sustainability, participation will be limited to licence holders who have not yet harvested a deer in the regular season.   |                 |   |         |
| The muzzleloader deer season extension will add an additional week (+25 per cent) to the existing four weeks of firearms deer hunting. The fee amounts for muzzleloader authorizations are set to be equivalent to that proportion of the existing resident and non-resident deer hunting licence fees. These fees will provide recovery of additional management costs associated with the deer season extension. |                 |   |         |

| <b>Comments:</b> Changes to campsite fees were approved in March 2023 for the three following seasons 2024, 2025 and 2026. Increases reflect the growing cost of maintaining the service and keeping pace with rates at private campgrounds. Seasonal rental fees are increasing by 2% in 2024. |                 |   |           |

| <b>Comments:</b> The <i>Private Woodlot Sustainability Act</i> provides authority to adjust timber royalties for the purpose of enhancing the management of the private woodlot forest.  |               |   |              |
| <p>Unless otherwise specified within the <i>Private Woodlot Sustainability Act</i>, the royalty adjustment collected by species and class of timber as prescribed below will be deposited in the Private Woodlot Sustainability Fund Special Purpose Account.</p> <p>The royalty adjustment is determined in one of two ways: <i>i</i>) it is calculated monthly using a formula and commodity price index information defined in regulation, or <i>ii</i>) it is set at a fixed amount in regulation. Unless otherwise indicated, the royalty adjustment is a function of the fair market value for that class and species as listed in Schedule A of the <i>Timber Regulation</i> (New Brunswick Regulation 86-160) of the <i>Crown Lands and Forests Act</i>.</p> |               |   |              |

\* Minimum revenue. Actual revenue will depend on the performance of commodity markets.

| <b>Comments:</b> Hopewell Rocks is a unique experience with little to compare it to. A 2021 analysis identified that the cost to operate the Attraction was 26% higher than revenues received from entry fees. THC proposes that this gap be eliminated. 2023/2024 is the second year of increases and averages 11%. The third year, 2024/2025 provides for a modest 2% increase. Hopewell Rocks are part of a Special Operating Agency in which all revenues are retained to be used for operating and capital budgets. |               |   |                        |

| <b>Comments:</b> The revenue generated from the sale of special permits is used to help offset a portion of the cost to government to provide this service to the public, which includes but is not limited to, maintaining an online permitting system, staff salaries, engineering reviews, and highway enforcement. This change is being proposed based on revised cost estimates since the last fee update in 2004. Please note that the change in revenues described above are the figures compared to the revenue collected in 2021-22. |   |
